

LINCOLN/LANCASTER COUNTY PLANNING STAFF REPORT

for June 8, 2005 PLANNING COMMISSION MEETING

PROJECT #: Change of Zone #05039

PROPOSAL: From B-2, Planned Neighborhood Business to H-3, Highway Commercial.

LOCATION: N. 27th Street and south of Folkways Boulevard.

LAND AREA: 0.75 acres, more or less.

CONCLUSION: The request is in conformance with the Comprehensive Plan.

RECOMMENDATION:

Approval

GENERAL INFORMATION:

LEGAL DESCRIPTION: See attached.

EXISTING ZONING: B-2, Planned Neighborhood Business District.

EXISTING LAND USE: Undeveloped.

SURROUNDING LAND USE AND ZONING:

North: undeveloped H-3, Highway Commercial
South: undeveloped B-2, Planned Neighborhood Commercial
East: undeveloped R-3, Residential, B-2, Planned Neighborhood Commercial
West: undeveloped R-3, Residential

ASSOCIATED APPLICATIONS: Crossbridge 1st Addition Preliminary Plat #05011

COMPREHENSIVE PLAN SPECIFICATIONS: The Comprehensive Plan indicates this area as Commercial (F-25).

HISTORY: On April 14, 2004 Planning Commission approved Crossbridge Preliminary Plat #04010.

On June 25, 2001 City Council approved King Ridge Use Permit 103B.

On February 22, 1999 City Council approved King Ridge Use Permit 103A.

On November 16, 1998 City Council approved Change of Zone #3153 from R-3, Residential to H-3, Highway Commercial.

On February 17, 1998 City Council approved King Ridge Use Permit #103, including the zoning change from A-A to B-2.

During the 1979 zoning update Zoning changed from A-A, Rural and Public Use to R-3, Residential.

UTILITIES: Water is provided from the existing public main in N. 27th Street, sanitary sewer is provided from the existing sanitary sewer line in the northeast of this subdivision.

TRAFFIC ANALYSIS: N. 27th Street is classified as an Urban Principal Arterial and Crossbridge Road is classified as a local road (F-103). The preliminary plat to the south showed a road extending to provide access for this property. That road is not built and does not show signs of being constructed in the near future. The Public Works and Utilities Department indicated that the proposed lot for a church may use the existing asphalt drive. If the developer desires to plat the other two lots, the public roadway must be installed, including the private roadway to the south of this plat.

The Trails and Bicycle Facilities Plan (F-95) indicates a trail near this property from the east extending west to N. 27th Street.

ANALYSIS:

1. This is a request to change the zone from B-2, Planned Neighborhood Business to H-3, Commercial in order to expand the boundaries of an existing commercial area.
2. The applicant indicated that the owners have purchased a 50' wide strip of property from the King Ridge developers to the south. The request is to change the zone on the property to H-3, which is consistent with the abutting property to the north. The newly acquired property is still within the boundaries of the King Ridge Use Permit #103 and must be removed from the use permit through the preliminary plat request. The applicant indicated the area is to be used for additional parking.
3. The minor extension of the zoning to incorporate the area into the existing Crossbridge development is satisfactory to the Planning Department.
4. The request is in conformance with the Comprehensive Plan.

Re: Cross Bridge 1st Addition Preliminary Plat
OA Project No. 2003-1252

Dear Mr. Krout,

Enclosed, please find the following for the above-mentioned project:

1. Site Plan - 21 copies
2. Drainage and Grading Plans - 9 copies
3. Preliminary Plat Application with Technical checklist
4. Change of Zone application with submittal requirements
5. Change of Zone Legal description and exhibit
6. Change of Zone Application Fee
7. Preliminary Plat Application Fee
8. Soils Report - 1 copy
9. Ownership certificate

On behalf of the Owner/Developer, Austin Realty Company, 8644 Executive Woods Drive, Lincoln NE 68512, we are requesting a *Preliminary Plat* on the property shown on the enclosed site plan, all located in the Northwest Quarter (NW4) of Section 6, T10N, R7E of the 6th PM, City of Lincoln, Lancaster County, Nebraska

The owners have purchased a 50' wide strip of property from the King Ridge developers to the south. We are proposing to change the zone on this property to H-3. This area is to be used for additional parking.

We are also requesting a right in / right out entrance off 27th Street as shown on the site plan. This property had the access to 27th Street purchased by the City as part of the 27th Street widening project. The current access is a frontage driveway from Enterprise Road parallel to 27th Street. The future access is a meandering private roadway through the King Ridge development. The King Ridge development showed the construction of a third northbound thru lane for the entire length of the development. Our clients are willing to construct 150' of this third lane to be used as a right turn lane. Our clients understand that the controlled access will need to be purchased from the City.

The land uses that this turn lane will support are not high traffic generating uses. One lot is a church, one is an office building, and one lot will be either a sit-down restaurant, or office building. These uses will be less intensive than the Rustad Property to the south that just recently got a right in / right out turn lane approved off 27th Street.

The following waivers are being requested for the above-mentioned project. The justification for each waiver is listed below. These waivers were previously approved as part of Cross Bridge Preliminary Plat.

1. A waiver to Design Standards to not construct sidewalks on both sides of the private roadway.

We have shown an alternative location for the sidewalks through the site.

4. A waiver to Design Standards to not require storm water detention on this site.

The neighboring properties to the north and south (King Ridge and Northridge) were not required to provide detention due to their proximity to Salt Creek. As this property fits the same locational criteria, it should also be granted the same waiver.

5. A waiver to Design Standards to not require a cul-de-sac at the end of the private roadway.

This private roadway connects into a parking lot that will provide room for vehicles to turn around.

Please contact me if you have any questions or require additional information.

Sincerely,

Mark C. Palmer, PE
